Department of Computer Science and Engineering

CSE 301: Assignment 03
Course Instructor: Dr. Mohammad Rezwanul Huq

Assignment 03 (Group Assignment)

Building a Simple Application in Oracle APEX

Assignment Description:

In this assignment, students are required to build a simple application in Oracle APEX based on the University database.

It is expected that the application must have at least five pages among which there must be a master-detail page, a page that shows tuples based on a SQL query and a chart based on an aggregate query.

Students should prepare a report with a brief description and the screenshot of their pages. Students also must demonstrate their work to the instructor according to the time schedule given below.

Submission Deadline:

Section 3: 19 March 2018
Section 4: 21 March 2018
Section 2: 22 March 2018
